SUMMER ENGINEERING PROGRAM IN HEIDELBERG, GERMANY

This program is based at the intersection of Germany's historic academic and cultural tradition and its cutting-edge industrial future. ESC Heidelberg offers core STEM courses and exceptional electives, giving students the opportunity to earn credit toward their major while experiencing a summer in one of Europe's most charming and inspirational university cities.

What's Included*

- 2 courses (6-7 credits) at the ESC Heidelberg
- Field visits to engineering labs, research centers, and industry sites
- Engaging tours of auto-industry sites and local microbreweries
- Student housing in shared apartments or student residences
- Day excursions to Stuttgart and Europa Park
- An overnight excursion to Strasbourg, France
- Courses are taught in English
- A full co-curricular cultural activity program
- Welcome & Farewell Dinners
- Airport pick-up & transportation pass
- Pre-departure & on-site cultural, health, safety & security orientations
- 24/7 Emergency support
- Carbon neutral/climate positive study abroad with CEPA's CO2 emissions offsetting program

Destination Overview

Heidelberg is a charming, historic, and student-centered city with a vibrant social scene, but its greatest strength lies in its unique fusion of heritage and innovation. As home to Germany's oldest university, it continues to be a foremost center of academic excellence.

For engineering students, Heidelberg and the surrounding region offer a top-tier environment for studying abroad. It is home to many international corporations and world-class talent from the IT, automotive, printing, and high-tech manufacturing industries.
