

**BIOMED
ENGINEERING**

**SEMESTER
PROGRAM**

FRANCE

A scenic view of a French town at dusk, featuring half-timbered houses along a canal with reflections in the water. The houses are illuminated by warm lights, and the sky is a deep blue. The canal is bordered by a stone wall and a metal railing, with flower baskets hanging from the railing. The water reflects the lights from the houses and the sky.

SEMESTER PROGRAM IN STRASBOURG, FRANCE

The program combines engaging STEM courses at the ESC Strasbourg with a large choice of University of Strasbourg courses, giving students a unique opportunity to earn credits toward a variety of STEM majors while exploring the culturally and historically rich city of Strasbourg.

What's Included*

- 12-15 credits at the ESC Strasbourg and the University of Strasbourg
- Field visits to biomed labs, research centers, industry sites, and European institutions
- Student housing in shared apartments or student residences
- 2 day trip excursions, including one international destination
- 3-day excursion to Paris
- Courses are taught in English
- A full co-curricular cultural activity program
- Welcome & Farewell Dinners
- Airport pick-up & transportation pass
- Pre-departure & on-site cultural, health, safety & security orientations
- 24/7 Emergency support
- Carbon neutral/climate positive study abroad with CEPA's CO2 emissions offsetting program

Destination Overview

Strasbourg is a modern, multicultural hub at the forefront of biomedical research, innovation, and industry. Home to leading universities, research institutes, and teaching hospitals, the city plays a key role in advancing healthcare technologies and life sciences across Europe.

For biomedical engineering students, Strasbourg offers a unique study abroad experience at the intersection of engineering, medicine, and scientific discovery, where innovation is directly connected to real-world health challenges.
