EUROPEAN STUDY CENTER

SUMMER ENGINEERING STEM PROGRAM

This program is based at the intersection of Germany's historic academic and cultural tradition and its cutting-edge industrial future. ESC Heidelberg offers core STEM courses and exceptional electives, giving students the opportunity to earn credit toward their major while experiencing a summer in one of Europe's most charming and inspirational university cities.

What's Included

Two courses are included in the program. Students can earn up to 7 US semester credits and enroll in one core STEM course >

- MATH 200 - Differential Equations
- MATH 200 - Multivariable Calculus (Calc III)
- ENG 200 - Fundamentals of Thermodynamics

Students select one ESC elective course >

- INTD 300/ENGR 300 - The History, Culture, and Science of Beer and Brewing

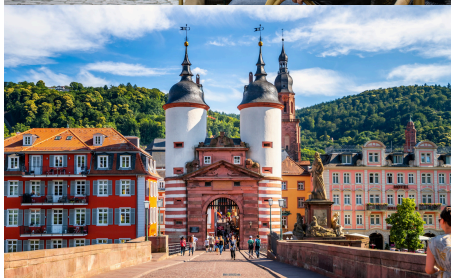

** Transcripts provided by CEPA's School of Record.*
Activities and excursions are subject to change.

- Field visits to engineering labs, research centers, and industry sites
- Engaging tours of auto-industry sites and local microbreweries
- Housing in studio apartment residences
- Day excursion to Stuttgart & Europa Park
- Overnight excursion to Strasbourg, France
- A full co-curricular cultural activity program
- Welcome & farewell meals
- Airport pick-up & transportation pass
- Pre-departure & on-site cultural, health, safety & security orientations
- 24/7 emergency support
- On-site CO_2 emissions offset by CEPA

About Heidelberg, Germany

Heidelberg is a charming, historic, and student-centered city with a vibrant social scene, but its greatest strength lies in its unique fusion of heritage and innovation. As home to Germany's oldest university, it continues to be a foremost center of academic excellence. For engineering students, Heidelberg and the surrounding region offer a top-tier environment for studying abroad. It is home to many international corporations and world-class talent from the IT, automotive, printing, and high-tech manufacturing industries.
